2: If mystery or puzzle to be solved it becomes easy, For what purpose was written the Peace Book?

1- For reaching to peace and security and for stablishing of World society, first I wrote dā (Peace book or Path book). Social knowledge of people is updated by scientists. And path and spiritual awareness of people is updated by prophets.

2- Our world is a dual world, like a theater scene, one is outside of scene and the other is inside of scene. In theater, inner scene creates the outer scene. Inner scene is factor and outer is effect. Inner scene writes the script, chooses the actors, and gives a special role to each actor. And actors are chosen by director and they play by willing of director, no more and no less. All of this is created by God. Result, people are educated, till arrive from one level of awareness to another level of awareness, and from one stage to another stage.

God is creator. We and everything in universe all are phenomena. God is factor and we are effect. God creates infinite events in every moment. Earth is one of infinite worlds of God. Earth is like a theater scene. Earth is one of Hells of universe. But compared to fiery hells, it is like a heaven.

We and all living beings on earth play own roles on earth. God created us and wrote our destiny and script, and we play according to willing and desire of God and we pass the pain, suffer, pressure and worried.

Result, our awareness rise, so we transferred from this stage to next stage.

God is absolute doer, and our intellect is in function of God's willing. If we were doer, our intellect became our guiding tool. But because of God is doer, our intellect practically is a useless tool. It is like an appendix in body, it can be or no be.

3- In our world, when God expires the period of a nation, a regime, a path, an ideology or anything else, solution is only extinction, not resisting. All of path and religious from east till west, from north to south, all have become void and invalid. And this is not unrespecting to their followers. Path is a factor of awareness and rescuing, not bias and traditions.

4- For certain extinction of past paths, Mullahs, Clergy and Missionaries' generation, I used from a simple example. Early telephones were made from three parts: Body, microphone, and earphone. Body was fixed on a table. And in calling time, person was getting microphone by one hand and earphone with the other hand. And was speaking.

In over time, telephones have changed. And mobile phones have emerged, and old telephones practically have become useless.

5- In “Peace book”, path has been updated. And people will no need to refer to Mullahs, Clergies, and Torah, Bible, and Quran and or other path books to answer own questions about God, Creation, and Salvation. So practically Mullahs, Clergies and Missionaries and other holly books will be extinct.

6- In world society, people will not be, threatened, arrested, jailed, tortured, burned alive on excuse of insulting to Path, Religion, Prophet, Mullahs, Holy Book, and Holy Place. And people won't be headless, handless and legless and stoned to implement of Sharia laws.

But because of, our world is one of the Hell worlds, inside of sea is unsafe, inside of forest is unsafe. And inside of human's societies is also more unsafe than inside of sea and inside of forest. Before technology era people were killing each other with stick and sword and in technology era, they kill each other with the advanced chemical, atomic and electronic weapons. Of course, own of God is cause of every kind of war and killing and peace, not people. (Riza Satisfied)

3: If mystery or puzzle to be solved it becomes easy.

1- In length of mankind history: Borders of countries always were case of between nations war. Early-humans were not safe from thieves and enemies. Early-humans built fences, walls, and ditches around their homes for own and own property safety. And then countries and borders also were created. And then these borders became factor of humans' wars and killings. And Humans fought together for sake of these illusionary borders from the beginning of history till technology are.

In this world, God made the kings cause of wars and the people victims of wars. Millions of people were killed, were wounded, were cut their heads, were tortured, were burned, were disabled, were missed, were captured, became homeless, and if every person who survived, he or she died by illness, or with poverty, or with old age.

I am asking from Religious and Materialist philosophers, politicians, sociologists and psychologists, from that day, humans appeared on earth, has ever been a day, no was war, killing and insecurity on earth? No. Why?

Because, our world is a Jail and Hell and place of Torments. Prophets know this, but wises don't know this. God has created the wars of former thousands of years, and now also God creates a temporary stable peace on earth, not people.

2- Now it had reached, deleting time of all irregular borders.

3- Deleting of irregular borders and establishing of new borders, also were a big and important problem and puzzle that, I must also be solving it.

4- I was saying with myself, how world be divided to Country Segmentation, till it becomes best form of Country Segmentation? Till all people to live peacefully together in it like a family.

5- I was focusing to numbers and forms of countries of world Society, during of months and years, in days and nights, in sleep and awaken time, in home and in out. Each time that, each think was coming to my mind, quickly I was writing and drawing it.

6- I considered Six Continents become Six Countries of world. I saw it became six big and separated countries. So, I saw that mystery or puzzle no solved.

7- Then, I divided each continent to five sections of Northern and Southern, Eastern, and Western and Central. Again, I saw some Countries have access to sea and some haven't. So, I saw that mystery no solved.

8- Then I divided on earth based on Northern and Southern hemisphere. It became two Northern and Southern countries. Again, I saw mystery or puzzle no solved.

9- Then, I divided the Northern hemisphere to 24 sections. and Southern to 24 sections. Again, I saw countries became Northern and Southern. Again, I saw mystery no solved.

10- Finally, I divided whole of Earth to 24 “Geografia longitude” sections.

So, number of countries became 18.

And length of each country became 20.000km from North Pole to South Pole.

And width of each country became 1.666 km, on equator line. (Riza Satisfied)

Administratn Building is symbol of unity of Word Society's People:

We become man or woman, literate or illiterate, religious or materialist:

- 1- We born with old believes.
- 2- We live with old believes.
- 3- And we die with old believes

Until we are fanatic and dependent to our Religious or Materialist believes,
we are in Religion's pit and well or in Material's pit and well.

Religious' pit and well or Materialist's pit and well both equally are piwel.
We have been in Religious or Materialist's piwel thousands of years.

In other word:

Religious and Materialist's biases both are our limitations cocoon.
And that Religious' or Materialist's cocoon was needed in past.

But today, has reached time that, we will come out from cocoon's bias.
And we will come out from Religious and Materialist's bias,
And like a butterfly we freely fly everywhere.

And this is destiny of all of us that:

First: We be in Religious and Materialist bias's pit well and cocoon.

Second: We rescue from Religious and Materialist bias's piwel and cocoon.

Third: We become free, glad and satisfied and enjoy from life. (Riza Satisfied)
